Our factory has been committed to the development and production of hard labels for more than 20 years, and this kind of labels are mainly used in supermarkets and some retail stores to prevent theft. In order to meet the different needs of customers, we will also customize the LOGO, color and shape of the label.

The hard tag is made of a brand new ABS material. The normal service life can be used for more than six years, and its detection range is excellent.

Our hard tag production process is standard assembly line production, which greatly improves production efficiency. Ultrasonic welding is used to make the hard tag shell stronger. At the same time, we will carry out full inspection after the finished products are assembled to ensure that each label can work normally.
