Our EAS hard tags are widely used in supermarkets, clothing stores, cosmetics stores, digital stores, libraries, etc. It is mainly used together with the EAS system, which will send out an alarm if a customer takes the product out of the store without opening the label. Hard tags also have a long service life.

The inner coil or other raw materials used by our hard label are of the highest quality. The new ABS material makes the anti-theft performance of the hard label better.

Our hard tag production process is standard assembly line production, which greatly improves production efficiency. Ultrasonic welding is used to make the hard tag shell stronger. At the same time, we will carry out full inspection after the finished products are assembled to ensure that each label can work normally.
